## Supplemental Incentive

**Kaukauna Utilities** is offering a **Supplemental incentive** for electric energy efficiency projects completed at GS-1, CP-1, & CP2 customers between January 1, 2022 and December 31, 2022 or until funds are depleted.

We believe a key strategy in controlling long term power costs is to avoid the need for expensive generation facilities. Energy efficiency projects are a means to that end and also provide the business a competitive advantage that will sustain their future, the local economy, and our community. There are current incentives available for electric (and gas) efficiency projects from the state run program entitled **Focus on Energy**. This Supplemental incentive offering of up to \$1,000, is **above and beyond** the Focus on Energy incentive, hence the incentive is called "supplemental".

Funding for this offering is limited and will be awarded on a first come, first serve basis. Eligible customers wanting to take advantage of this supplemental incentive must receive approval by Kaukauna Utilities **before** project installation. (See eligibility information on reverse page)

If you are considering an electric efficiency project for your business, please feel free to contact me at [sengebos@wppienergy.org](mailto:sengebos@wppienergy.org) or call at (920) 462-0251 to discuss the project and the incentive.

Best Regards,

*Steve Engebos*

Steve Engebos  
Energy Services Manager

## **Eligibility**

- Supplemental incentive from Kaukauna Utilities (K.U.) are available to K.U. electric service customers in the rate tariff categories (GS-1, GS-2, CP-1, CP-1 TOD, and CP-2 only)
- Projects must be completed in an existing building (not available for new construction)
- Supplemental incentive must be pre-approved by KU before the project installation. K.U. may inspect the project prior and following completion.
- All Supplemental incentives are payable to the business only
- Required for Supplemental incentive payment:
  - Projects must not commence before 1/1/2022 and must be completed in the calendar year
  - Copy of the contractor invoice or equipment invoice to K.U. no later than 120 days after project completion
- If an eligible project is completed by a contractor, total incentives (cumulative value of Focus on Energy and Kaukauna Utilities) cannot exceed 50% of the project installed project cost. Self-installed projects, total incentives cannot exceed 75% of the equipment cost
- **Maximum per-project incentive is \$1,000**
- Supplemental incentive program is subject to discontinuation without notice at the discretion of Kaukauna utilities.
