

POWER THAT COSTS LESS

Typical residential customers of Kaukauna Utilities who use 700 kilowatt-hours (kWh) of electricity per month pay an average cost of 12.4¢ per kWh – that’s significantly less than the statewide utility average of 17.2¢. And, while the difference in pennies might not sound like much, this small change adds up to big dollars each month.

\$33 LESS
FOR
ELECTRICITY

DID YOU KNOW?

Residential customers of Kaukauna Utilities pay approximately \$33 less for electricity on their monthly bills compared to the statewide average.

Because we are community-owned and not-for-profit, every decision we make is focused on delivering reliable service and managing costs right here at home. That’s why our customers consistently pay less than the state average for residential electricity.

WE WORK HARD TO KEEP COSTS DOWN
