

We Help Lower Your Energy Costs

As your locally owned not for profit utility, our focus is on serving the community. By participating in FOCUS ON ENERGY®, we make statewide programs and incentives available to our customers. One of the most popular offerings is a **FREE ENERGY-SAVING PACK** delivered right to your home. You can choose from several pack options, each designed to support simple improvements that reduce energy waste and make your home more comfortable.

These packs contain practical products that help you start saving right away. They are free for eligible households, and ordering takes only a few minutes. The packs are a convenient way to take the first step toward long-term energy savings and a more efficient home.

More Ways to Save with Focus on Energy

In addition to free packs, FOCUS ON ENERGY® (Focus) offers **instant discounts** on efficient household products through its online marketplace. You can find savings on items that support comfort, performance, and healthy air in your home.

Focus also provides **incentives for upgrades** in heating, cooling, insulation, and other home improvements. These options can help you lower your energy use and manage your monthly costs over time. Simple upgrades, when combined with available incentives, can support meaningful energy savings for many years.
